CfA: Mentoring Programme

The aim of the Hertie Foundation’s mentoring programme is to systematically support Hertie fellows as active future decision-makers and framers, in their work in science, finance/business, politics, art/culture, civil society and public administration.

The focus of the structured mentoring programme, organized in cooperation with the Center for Advanced Practitioners (Hertie-Innovationskolleg) and the Freunde der GHS e.V., are recurring personal meetings between a mentor and mentee as well as a supporting programme developed by the Hertie Foundation.
What can you expect?

A positive and supportive atmosphere from the beginning: Kick-off
At the kick-off event, mentors and mentees meet. As part of the meeting, the collaboration between mentees and mentors will be defined and planned for the duration of the programme.

Communication on a level playing field: One-on-one meetings
The one-on-one meetings between mentee and mentor constitute the core of the programme. Throughout the duration of the programme the pairs meet regularly to work on their personal goals. In-person meetings may be supplemented by telephone calls.

Out-of-the-box-thinking and assisted reflection: Halftime reflection
Throughout the entire programme, mentees and mentors are systematically assisted and supported to reflect on their specific roles and responsibilities. Mentors have the possibility to develop their leadership and consultation skills.

Courageous visions and farsighted networks: Closing event and Hertie Fellows Summit
At the closing event, we will evaluate the programme. The Hertie Fellows Summit and the Summer Party of the Hertie Foundation’s fellows in Berlin will offer an opportunity to meet Hertie fellows from other initiatives and the projects of the Center for Advanced Practitioners.

Application
You may apply via the following registration forms. You must provide a current CV and complete the application form until Sunday, 22 October 2017.
You can find further information regarding the application process here:
- Registration as a mentor:
- Application as a mentee:
